

Welcome to class 5!

How are you today? I am sure you are tired from all the work you have to do at home; I know it might be hard to understand all subjects without the teacher, but I am here to help and today we will just exercise.

- ✓ Date: Thursday, April 2nd 2020
- ✓ It's autumn, sunny but a bit cold.

- Thank you for sending me your worksheet, you all did right! What makes me believe, you have understood the contents. That's my class!
- So far, we have seen the use of A-AN, This, That, These and those, plus school objects vocabulary, you have describe a picture, you can recognize if it is close or far, so you are doing great!
- Now I want you to go to your book and work on the first pages with exercises of A-AN and demonstratives, you can color the pictures and answer the questions. If there are some of them you cannot complete, circle it and I will help you when we see each other in person, do not stress, remember it is ok to make mistakes and we are all learning here, it's ok if you don't know.
- When you finish the exercises think about the following:
 - ✚ **1 thing is completely clear:**
 - ✚ **1 thing I do not understand very well yet:**
 - ✚ **1 thing I do not understand:**

Go back to your notes, and try to look for the information you don't have very clear yet, if you can't find it or you just don't understand, send me an email or circle it, so I can help you when I see you.

Remember you can send me an email with doubts, suggestions, opinions, anything! I am here for you.

Lots of love,

Miss Poulette
