

Welcome to class 5!

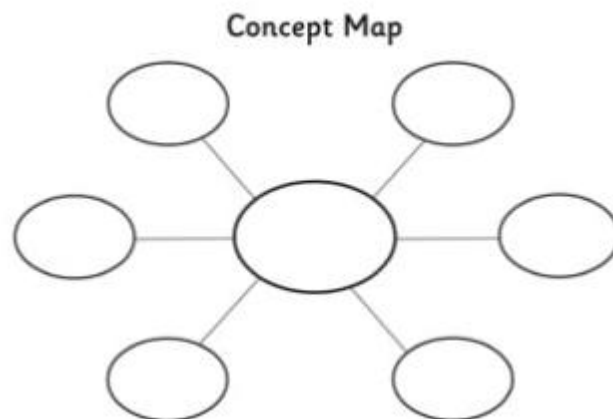

Good morning 7th graders, how do you feel today? I understand your tiredness and I totally feel your stress, but do not worry, I will try to make it easy and short for you.

First of all, write down the date:

- ✓ Thursday, April 2nd 2020
- ✓ It's sunny, but a little bit cold; it's autumn and the colors outside are turning orange! (love it!!)
- ✓ Today we will read and look for new vocabulary; simple, easy and I know you are familiar with the steps.
- First of all, go to page 9 on your book and take a look at the text "Boot camp" before you start reading, just by reading the text and looking at the picture, tell yourself: "What do you think the text is going to be about?"

1. Read the text one time and **write down the main idea**.
2. Read the text again **by paragraphs and write down the main idea of each paragraph**.
3. Read the text again and **highlight all the new words you might find** (look for their meaning later).
4. Now that you have analyze the text, **read it again and write a more specific idea of the text**.
5. In your copybook, **make a concept map**, where you write the title in the middle and ideas or words around to have a full understanding of the text.

That's how you analyze a text! Now I am sure you get the idea, the new words and you are ready to answer the questions in the next class.

Send me and email if you have doubts, suggestions, comments, anything. I am here for you.

Lots of love

Miss Poulette
